Biodiversity Policy

Dominic Lydon Steel Galway Ltd. recognises the importance of protecting biodiversity and the natural environment. We are committed to managing our activities responsibly and minimising any potential impacts on habitats, wildlife and ecosystems.

DLS will consider biodiversity within our environmental management practices and seek opportunities to protect and enhance biodiversity where practical.

Our Objectives

- Comply with applicable legislation and requirements relating to biodiversity and nature conservation.
- Create a 20-metre pollinator-friendly bed on site to support pollinators and local biodiversity.
- Craft and install bug hotels across our site to provide shelter and nesting habitats for insects and other beneficial wildlife.
- Install bird nesting boxes in suitable trees across the site to provide safe nesting habitats for local bird species. Identify and assess potential biodiversity risks associated with our site and activities.
- Take appropriate measures to prevent or minimise impacts on habitats, wildlife and protected species.
- Prevent pollution, spills and uncontrolled waste that could negatively affect the surrounding environment.
- Manage waste responsibly and maximise recycling and recovery.
- Minimise unnecessary disturbance, noise, dust and emissions that may affect the local environment.
- Maintain developed areas of the site responsibly and avoid unnecessary disturbance to surrounding habitats.
- Consider biodiversity when planning future site developments, works and changes to operations.
- Encourage employees to be aware of and report potential environmental or biodiversity issues.
- Identify practical opportunities to improve biodiversity around the site where feasible.
- Review our biodiversity performance and objectives regularly as part of our commitment to continual environmental improvement.
